

## Meeting 5<sup>th</sup> October:

Short summary of decisions that was made on the meeting:

### 1) November sampling:

- a) Cruise including anchor stations will be conducted in November on the 21<sup>st</sup> and 27<sup>th</sup> due to tide tables (spring & neap). Transect of station 13 – 2B – 6 will be measured using ADCP (Acoustic Doppler Current Profiler). Station 3 will be the main anchor station (24 hours) conducting measurements every 2 hours. **Involved: All Vietnam Participants + Morten, Anders & Rocio**
- b) Sediment core samples will be collected from stations 3 and 5(?). Equipment will be delivered from Copenhagen (Super Corer) in order to analyze sediment deeper than 30 cm. Date ≈ 24<sup>th</sup>
- c) **Involved: Some VN Participants & Marianne**
- d) Inland trip to an active shrimp pond in order to get nutrient samples from pond sludge and water sample from one of the main channels leading effluent water from the cultures. Date ≈ 25<sup>th</sup>  
**Involved: 1-2 VN participants & Anders**

### 2) Website:

We will have a static Vietnamese outline of the basic activities, involved people presentation and scientific goals and activities – Static to lighten website management.

**Involved: Anders, Henrik Enevoldsen & Hai**

### 3) Future VN&DK Cooperation centre in Marine Science at Nha Trang:

The possibility of setting up a VN & DK Co-operation Centre in Marine Science at the Institute of Oceanography, Nha Trang .

No date is currently proposed. Further discussions are planned for mid-2010.

**Proposer: See project document**

**Involved: Workgroup Aarhus, workgroup CPH, workgroup Vietnam**
